I have tried to remove them. Next time you go to the library see if Mrs. Taylor can help you get these removed.

What is the process for adding new books to the library that could potentially be a SB150 issue? I subscribe to Junior Library Guild and get books monthly from selected categories of my choosing but I don't select the titles. This is one I just received. Please advise.

Will on the Inside

Andrew Eliopoulos

"An honest, sophisticated look at the myriad emotions surrounding chronic illness and growing up 'not straight' in a religious Georgia town." — Publishers Weekly (starred review) "Relatable, real, and utterly engrossing." — School Library Journal (starred review) *** After dedicated soccer player Will is sidelined from the season—and his friend group—due to complications from his newly diagnosed Crohn's disease, he finds himself figuring out who he really is on the inside in this heartfelt and thoughtful middle grade novel that's perfect for readers who love books by Maulik Pancholy and Christine Day. Will loves playing center midfield on his middle school soccer team. This year, though, Will hasn't felt like himself; his stomach has been bothering him, and he has no energy at all. When his new doctor diagnoses him with Crohn's disease, Will hopes that means he'll start feeling better soon and he can get back to playing with his team before the season ends. But Will's new medicines come with all kinds of side effects. Forced to sit out afternoon practice, Will finds himself hanging out with a kid at school, Griffin. This could be a real problem, seeing as Griffin just asked Will's best friend to the spring dance. As in, guy friend. What would Will's teammates say if they knew the whole story? Not to mention Will's friends at church. With all these changes happening faster than he can process them, Will knows that he has a lot to figure out about who he really is on the inside. The Many Masks of Andy Zhou

Jack Cheng

★ ★ ★ ★ ★ 4.14 105 ratings · 21 reviews

"Another beautiful book by Jack Cheng." —Erin Entrada Kelly, Newbery Award-winning author of Hello, Universe

Creative and brave sixth grader Andy Zhou faces big changes at school and at home in this new novel by the award-winning author of See You in the Cosmos, for fans of When You Trap a Tiger and The Stars Beneath Our Feet

Andy Zhou is used to being what people need him to be: the good kid for his parents and now grandparents visiting from Shanghai, or the helpful sidekick to his best friend Cindy's rebellious plans and schemes.

So when Cindy decides they should try out for Movement at school on the first day of sixth grade, how can Andy say no? But between feeling out of place with the dancers, being hassled by his new science partner Jameel, and sensing tension between his dad and grandfather, Andy feels all kinds of weird.

Then, over anime, Hi-Chews, and Andy's lizard-inspired artwork, things shift between him and Jameel, opening up new doors—and also new complications.

No matter how much Andy cares about his friends and family, it's hard not to feel pulled between all the ways he's meant to be, all the different faces he wears, and harder still to figure out if any of these masks is the real him.

Not sure the afterlife and monster books look like a SB150 issue from what I see. It does look like the other 3 could fit the language of SB150.

You can pull books at any time. If you catch them you can pull it. You have done your due diligence from what I can tell. If someone else finds them, they can report to you and then you can review it and pull if needed. Just keep us up to date so we can add to our overall list.

Stephanie,

Thank you for helping us out. Below is the email Karen Thorton sent out to the panelist back in August. She is coordinating our October program and will be moderating the discussion. Please ask whatever questions you have and I'll do my best to answer them.

Alane

Greetings Suzanne, Katie & Georgial

I want to thank each of you for agreeing to participate on a panel for the KY Women's Network meeting on October 10th at Inter-County Energy at 7:00 pm. We plan to advertise the program to our members, former members and others who have attended meetings in the past. Our Advisory Committee decided to title our program "Freedom to Read". This topic was proposed by our membership after concerns over recent efforts to ban certain books and types of materials available in schools and public libraries. We will not be advertising the program in the newspaper or on social media, and our audience should be receptive to your message. We generally have about 25-30 people at our meetings.

I will be introducing each of you at the start of the meeting, then directing several questions to each of you with the opportunity for you to respond. Below are the questions our advisory committee proposed for the panel discussion.

1. What is the current policy for your school system or library related to access to books/material that some deem unacceptable? Has your policy changed in any way since SB 150?
2. On what grounds are materials being restricted? How have restrictions affected students' education?
3. What objections have been raised to restrictions? And what would you suggest individuals do that oppose restrictions?
4. What efforts have been made to inform the public about policy changes?

We may not get to all these questions in the time available, and I am open to your comments and suggestions about the questions above. If time permits, we like to have 5-10 minutes at the end for questions from the audience. We try to keep our meetings to no more than an hour. We also want to be respectful of your time as you are all busy people.

I'll be back in touch with you a week or two prior to the meeting to make sure you are all set for our discussion. Thanks so much for your willingness to be a part of this discussion!

1. What is the current policy for your school system or library related to access to books/material that some deem unacceptable? Has your policy changed in any way since SB 150?
2. On what grounds are materials being restricted? How have restrictions affected students' education?
3. What objections have been raised to restrictions? And what would you suggest individuals do that oppose restrictions?
4. What efforts have been made to inform the public about policy changes?

We may not get to all these questions in the time available, and I am open to your comments and suggestions about the questions above. If time permits, we like to have 5-10 minutes at the end for questions from the audience. We try to keep our meetings to no more than an hour. We also want to be respectful of your time as you are all busy people.

I'll be back in touch with you a week or two prior to the meeting to make sure you are all set for our discussion. Thanks so much for your willingness to be a part of this discussion!

These questions are what we have been conveying already. We can answer these questions again if Mark wants us to or we can let this pass by.

Stephanie,

Thank you for helping us out. Below is the email Karen Thorton sent out to the panelist back in August. She is coordinating our October program and will be moderating the discussion. Please ask whatever questions you have and I'll do my best to answer them.

Alane

Greetings Suzanne, Katie & Georgia!

I want to thank each of you for agreeing to participate on a panel for the KY Women's Network meeting on October 10th at Inter-County Energy at 7:00 pm. We plan to advertise the program to our members, former members and others who have attended meetings in the past. Our Advisory Committee decided to title our program "Freedom to Read". This topic was proposed by our membership after concerns over recent efforts to ban certain books and types of materials available in schools and public libraries. We will not be advertising the program in the newspaper or on social media, and our audience should be receptive to your message. We generally have about 25-30 people at our meetings.

I will be introducing each of you at the start of the meeting, then directing several questions to each of you with the opportunity for you to respond. Below are the questions our advisory committee proposed for the panel discussion.

1. What is the current policy for your school system or library related to access to books/material that some deem unacceptable? Has your policy changed in any way since SB 150?
2. On what grounds are materials being restricted? How have restrictions affected students' education?
3. What objections have been raised to restrictions? And what would you suggest individuals do that oppose restrictions?
4. What efforts have been made to inform the public about policy changes?

We may not get to all these questions in the time available, and I am open to your comments and suggestions about the questions above. If time permits, we like to have 5-10 minutes at the end for questions from the audience. We try to keep our meetings to no more than an hour. We also want to be respectful of your time as you are all busy people.

I'll be back in touch with you a week or two prior to the meeting to make sure you are all set for our discussion. Thanks so much for your willingness to be a part of this discussion!
